Mountain	Large natural elevation of the earth's surface rising abruptly from the surrounding level.
Lake	A large area of water surrounded by land.
Rain	The condensed moisture of the atmosphere falling visibly in separate drops.
Endangered	Seriously at risk of extinction.

Kenya

Continents and Oceans

The climate in Kenya

Kenya has a warm, tropical climate, with wet and dry seasons. However, because Kenya is so close to the equator it doesn't have hot and cold seasons like the UK.

Animals in Kenya
