

14 July 2021

Dear Parent/Carer

We have just been informed that someone in our Y5 and Y3 bubbles has had a positive lateral flow test. Public Health has advised us that both bubbles should isolate until the person receives the result of their PCR test. If your child has attended Y5 or Y3 on Monday and Tuesday this week, they will need to isolate until we have the PCR test result. We appreciate that this will affect the majority of children in those year groups.

We will be back in touch as soon as we have further information. If the test result is positive we will let you know about isolation dates.

Please remember there are things you can do to help reduce the risk of you and anyone you live with getting ill with coronavirus (COVID-19):

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze and put used tissues in the bin immediately and wash your hands afterwards

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Yours sincerely

Mr I Tankard
Headteacher
